

# Put everything on one easy-to-use platform.

# RemoteLOCK<sup>®</sup>

<b>Founded</b>	2011
<b>Primary Markets</b>	Commercial, Multi-Family Housing, Vacation Rentals, Hospitality
<b>Geography</b>	Worldwide
<b>Headquarters</b>	Denver, CO
<b>Highlights</b>	RemoteLock developed the first Wi-Fi smart lock (RemoteLock 500i) in 2012.

RemoteLock is the leading provider of cloud-based software for smart lock management and access control. RemoteLock's software allows users to remotely control access for renters, guests, employees and contractors—saving time and money. RemoteLock provides clients ultimate flexibility—the ability to control any door, using any credential, with locks from every leading manufacturer—all from one dashboard.

**100** Million Opens  
Per Year

**65** Countries

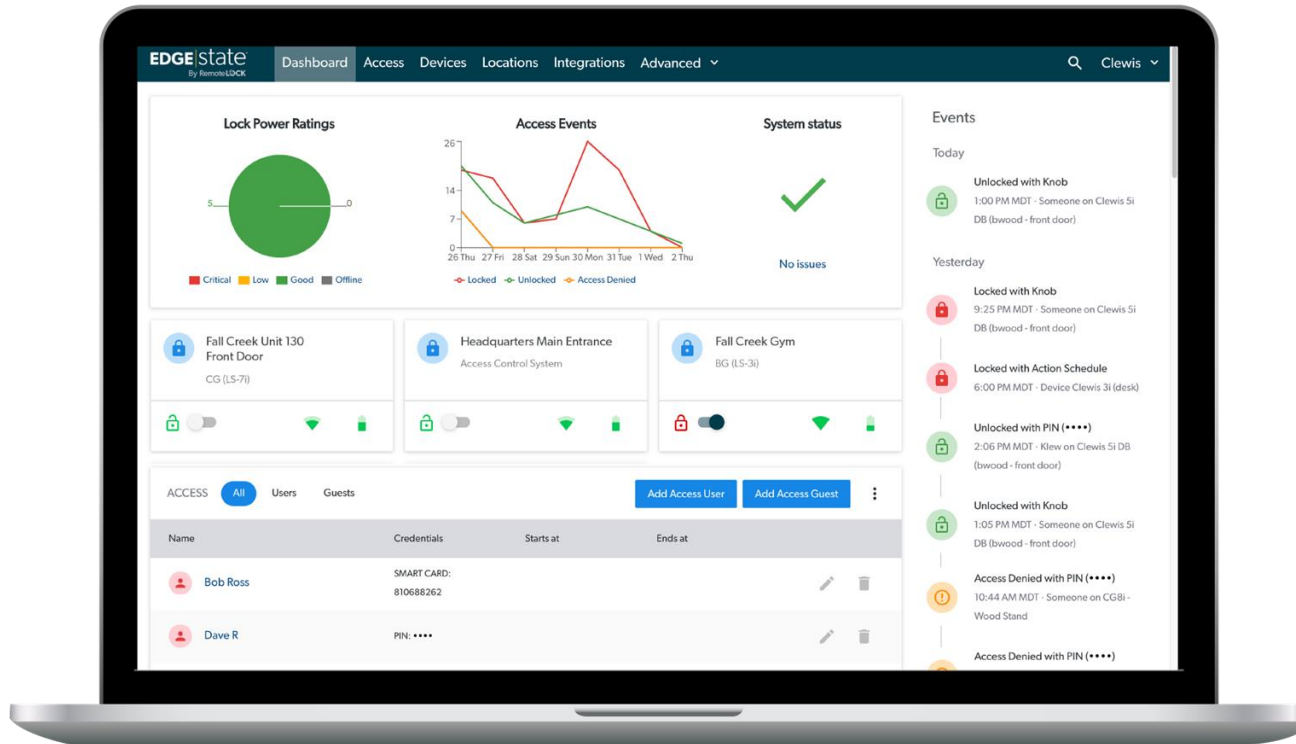

**40** Million Access  
Users Per Year

Confidential

## Smart control for the entire property.

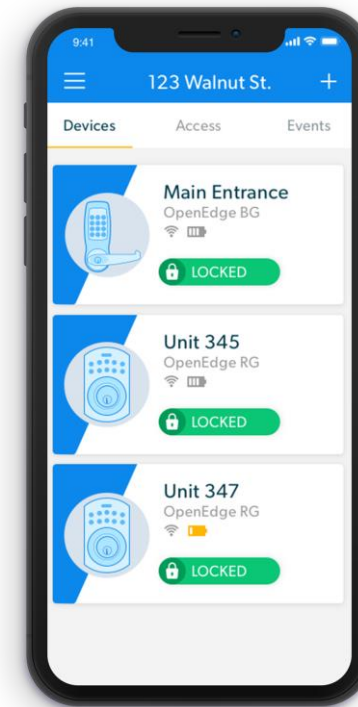

- A Main Entrances**  
Narrow glass doors and high-traffic shared access.
- B Admin/IT Rooms**  
High-risk server rooms, cash rooms and admin rooms.
- C Residential**  
Indoor and outdoor options for deadbolt and lever.
- D Business Offices**  
High-quality, commercial and business locks.
- E Elevators**  
Customized access control systems for elevators.
- F Shared Spaces**  
Secure shared space like pool areas, gyms, patios, etc.
- G Utility Closets**  
Low cost, easy-to-install wireless lock options.
- H Garages**  
Secure garage and warehouse access.

## Property Managers

Manage and administrate access with full-featured cloud software.

## Tenants

Manage their personal access with the easy-to-use smartphone app.
